Dear Dr Parker,

On behalf of the Pfizer Oncology Medical Affairs team, we are pleased to share information regarding two recent **publications** describing **real-world comparative analyses of overall survival and progression-free survival for PADCEV® (enfortumab vedotin-ejfv) in patients with locally advanced or metastatic urothelial carcinoma.**

Included are the links to the online publications*:
[Comparative overall survival of enfortumab vedotin-ejfv versus chemotherapy in previously treated advanced urothelial carcinoma: real-world evidence from the U.S. – ESMO Open, 2025](#)

[Real-world progression-free survival of enfortumab vedotin-ejfv compared with standard therapies in locally advanced or metastatic urothelial carcinoma: insights from U.S. clinical practice – ESMO Open, 2025](#)

*Hypothetical publications.

Sincerely,
US Pfizer Oncology Medical Affairs

If you have questions about the above information or the safe and effective use of Pfizer medications, please feel free to contact [Pfizer Medical](#).

The publications linked above are hosted on websites that are neither owned nor controlled by Pfizer. Pfizer accepts no responsibility for the content or services of the linked site. You may view resources and information related to Pfizer medicines.

This information is intended only for health care professionals in the United States.
